

ENMAT MID DIN Rail/Panel Meter

- ◆ Easy to install and configure
- ◆ Suitable for Panel mount or DIN-rail
- ◆ MID Approved
- ◆ Detachable display

MID APPROVED

The ENMAT MID Rail/Panel Meter is supplied with a removable front LCD display. This allows the unit to be configured for panel or DIN-rail mounting.

This three-phase energy meter is certified according to MID Directive Annex "B" + Annex "D" for legal metrology relevant to active electrical energy meters (see Annex MI-003 of MID).

The ENMAT MID DIN Rail/Panel Meter is suitable for both active and reactive energy metering for cost allocation but also for main electrical parameter measurement and retransmission (transducer function).

This meter is CT connected and has a pulse and Modbus output.
