

- ◆ Quick and Easy Install
- ◆ Remote reading of electricity data
- ◆ LED operation interface

## ENMAT GPRS Energy Logger

The ENMAT GPRS Energy Logger interface is connected via Optical or electrical interface to the energy meter.

Electricity consumption data is transmitted via GPRS to **ENMAT Cloud** and displayed on PCs, smartphones and tablets.

The ENMAT GPRS Energy Logger is the ideal solution for:

- Shops
- Malls
- Supermarkets
- Offices
- Public Institutions
- Restaurants
- Many other types of buildings
